**Effective Communication Styles Inventory**  
**Scoring Form A**

**DIRECTIONS:** Print and complete this scoring form to determine your communication style.

1. Reflect on your personal characteristics as you read across each of the 15 lines below and circle two descriptive words that best describe you on each line. This is a forced choice, so sometimes all four words will describe you, but you MUST select only two. Sometime none of the four words “best” describes you, however, you MUST select two words on each line.

2. After completing line 15, count the number of words circled on each line, (as you read across from left to right) there must only be 2 words circled on each line.

3. In each column (x, z, w, and y), count the number of words circled and indicate the “total” circled in the box provided.

4. Your “total” scores for each column represent four “points” (w, x, y, z), take these four points and graph them on the scoring grid which follows. When plotting your points, remember zero is in the middle of the graph no matter which direction you are plotting (left, right, up, or down).

5. Draw a four sided figure to connect the four points (in other words when you connect your four points they MUST make a square, rectangle, in other words a four sided figure. **DO NOT DRAW A KITE.** The largest area (length x width) of the four sided figure drawn represents your dominant communication style as indicated by the words you selected. If you disagree about your style, go back and review the words you selected.

6. Read the summary page for information about your style.
